

Notice for Entry Personnel and Hygiene Plan

2020 SIAL CHINA

The purpose of this document is to implement prevention and control of COVID-19 during all the exhibitions period demanded by 2020 SIAL CHINA. To provide a safe, healthy, and reliable exhibition environment, the Organizer will take the necessary epidemic prevention measures in accordance with the requirements of the joint defense and control mechanism of the State Council and the COVID-19 prevention and control guideline of Shanghai Convention & Exhibition Industry Association.

COVID-19 MAIN MEASURES PLANNED ON SIAL CHINA 2020

- **Disinfection** of the National Exhibition and Convention Center (NECC)
- **Qualified medical examination report** will be required for all the contractors and workers on-site
- **Body temperature measurement** thanks to infrared image detectors at the entrance
- **Ambulance** and **isolation holding room** on-site for suspected cases
- Multiple **hand disinfection machines** in the NECC
- Visitors and buyers will be encouraged to register by **scanning a QR code** on-site, in order to reduce paper registration form and human contact

Please abide by the following rules when you enter the exhibition hall. Thank you for your support and understanding!

01- Execution time

Move-in: 26th - 27th September, 2020

Show period: 28th - 30th September, 2020

Move-out: 30th September, 2020

02- Working Principle

Prevention is our priority. The organizer, local authorities and NECC strengthen their cooperation for the benefits of all exhibitors and visitors. To discover, report and conduct at the first stage: If there is any suspect infected case occurs, organizer should discover in time, report to Shanghai CDC promptly and conduct emergency epidemic prevention measures. We will sum up the epidemic prevention experience in order to continually improve our prevention abilities.

03- Prevention and control emergency measures:

1. **Please complete the online real-name registration before the show.** Visitors should provide their true and valid ID/ Passport numbers and mobile phone contact information through the relevant online system:

Please click here to register in Chinese:

<https://services.sialchina.cn/visitorreg?channel=othercn>

Please click here to register in English:

<https://services.sialchina.cn/visitorreg?channel=otheren>

After verifying the original ID card/ original passport onsite, you could enter the hall and enjoy the show.

Temporary foreign entrants should provide a RNA test report and a notification of out of quarantine, original passport and take a photograph for record before entering the exhibition hall. Expatriates resident in China could register their Shanghai QR Code in advance (as below picture), then present your original passport and Shanghai QR Code in GREEN onsite to enter the exhibition hall.

2. **Kindly reminder:** Please remember to bring your **own ID card/ original passport** when you enter the exhibition hall. Minors are not allowed to enter.

3. **All personnel entering the exhibition hall will be admitted by the Shanghai QR Code scanning process, the temperature measurement and the identity verification (original ID card/ original passport).** Badges will be given to those who have a normal temperature, a verified ID card/ passport and a GREEN Shanghai QR Code. Onsite isolation areas will be set up to quickly isolate people who show signs of hyperthermia. Qualified medical doctors will be present and medical facilities will be equipped for more detailed examinations. The Organizer will inform the relevant department in time if there is any suspected infected person. Please cooperate with the Organizer to go to the designated reception point to avoid abnormal signs or risk groups from entering the exhibition hall. Those who present the Shanghai QR Code in GREEN and with normal temperature can scan the ID card/original passport to obtain the badge, and make the verification of original ID card/original passport through the gate to enter the exhibition.

4. **Please wear masks when you enter the exhibition hall to ensure your personal safety.** Maintain a safe social distance of 1 meter which will reduce the physical contact. The organizer will set specific waste box to throw masks, gloves and other epidemic prevention garbage to prevent the cross infection.

5. The organizer will set up the alcohol-based hand sanitizer at the main entrances and exits of each hall for self-disinfection of exhibitors and visitors during the exhibition.
6. To ensure air circulation in all areas of the exhibition hall, the entrances and exits of the exhibition hall are open.
7. In order to avoid peak flows, visitors should make online reservations in advance and choose a visiting time (entry time). Please follow the instructions of on-site staff and enter into the exhibition in order.
8. To ensure your safety, the number of participants will be limited in conference rooms and the seats will be placed 1 meter apart. Please wear masks when you attend the meeting.
9. Please avoid gatherings during lunch time.
10. People from high-risk epidemic regions will not be allowed to register for participation or to enter the exhibition venue. Please stay in hotels that meet the conditions of sanitary and epidemic prevention, so as to avoid the public places with dense population except the exhibition hall as far as possible during the exhibition. When going out, please wear masks, wash hands frequently, maintain social distance, and consciously abide by the epidemic prevention regulations of the exhibition hall and the local government. In case of emergencies, the Organizer will control the exhibition according to the regulations of the epidemic prevention and control department.
11. The organizer kindly remind that exhibitors must prepare enough masks, disposable gloves, disinfectant water, hand sanitizer and other anti-epidemic items for their own stand's disinfection.
12. In order to protect the safety of onsite personnel, exhibitors and visitors, disinfection will be arranged every day in the exhibition halls and all public areas, and especially on the elevators buttons, the door handles, etc.
13. Prior to the show, the organizer will collect all the information of registered contractors, including qualified medical examination report. Their identity and documents will be also checked during the show and dismantling. The organizer will also verify again onsite and ensure consistence to improve the epidemic prevention.
14. Please take temperature test and enter the exhibition hall with body temperature below 37.3 °C. The organizer will arrange ambulance and medical staffs on site for any necessary treatment of abnormal temperature person. The organizer will also set up billboards in the exhibition venue with instructions and epidemic prevention messages. If there is any special situation happens, we recommend you to go to hospital immediately.

15. All staffs on site including suppliers' ones will be aware of the epidemic prevention measures; They will be prepared to implement temperature test, real-name verification, access control, security check, maintain order. They will be aware of all necessary epidemic prevention measures. and other necessary epidemic prevention measures. The organizer will set in each exhibition hall a team responsible for quarantine procedures.

16. During move-in/out and show period, the organizer and NECC management department will strengthen inspections in exhibition halls. Exhibitors will have to disinfect carefully and daily their own booth, and then make a daily record. If exhibitors find the visitor who has symptoms such as fever, weak, coughing, diarrhea, please escort this person to the onsite medical station right away.
